

# Video Games - Motives & Barriers

Lars Bartschat

# Agenda

- Introduction
- Foundations
- Model Development
- Model Validation
- Conclusion

82 million Germans

34 million Gamers

## Industry Foundations

1970's

# Self-Determination Theory

Intrinsic Motives

associated to Motives

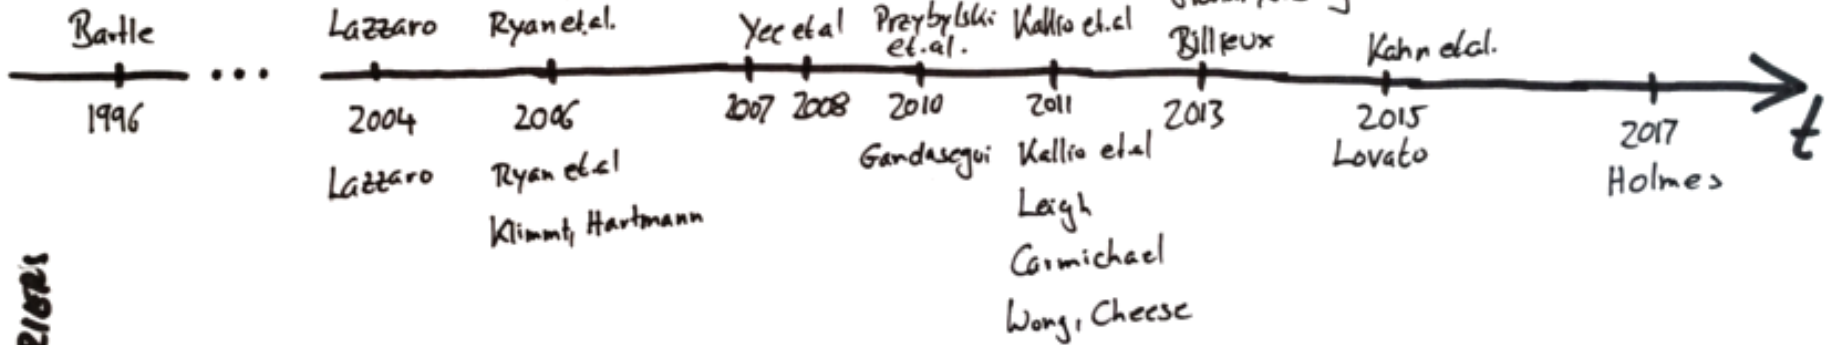

## Uses & Gratifications Theory

# Literature Overview

MOTIVES

Barriers

## Literature Synthesis

# Motives

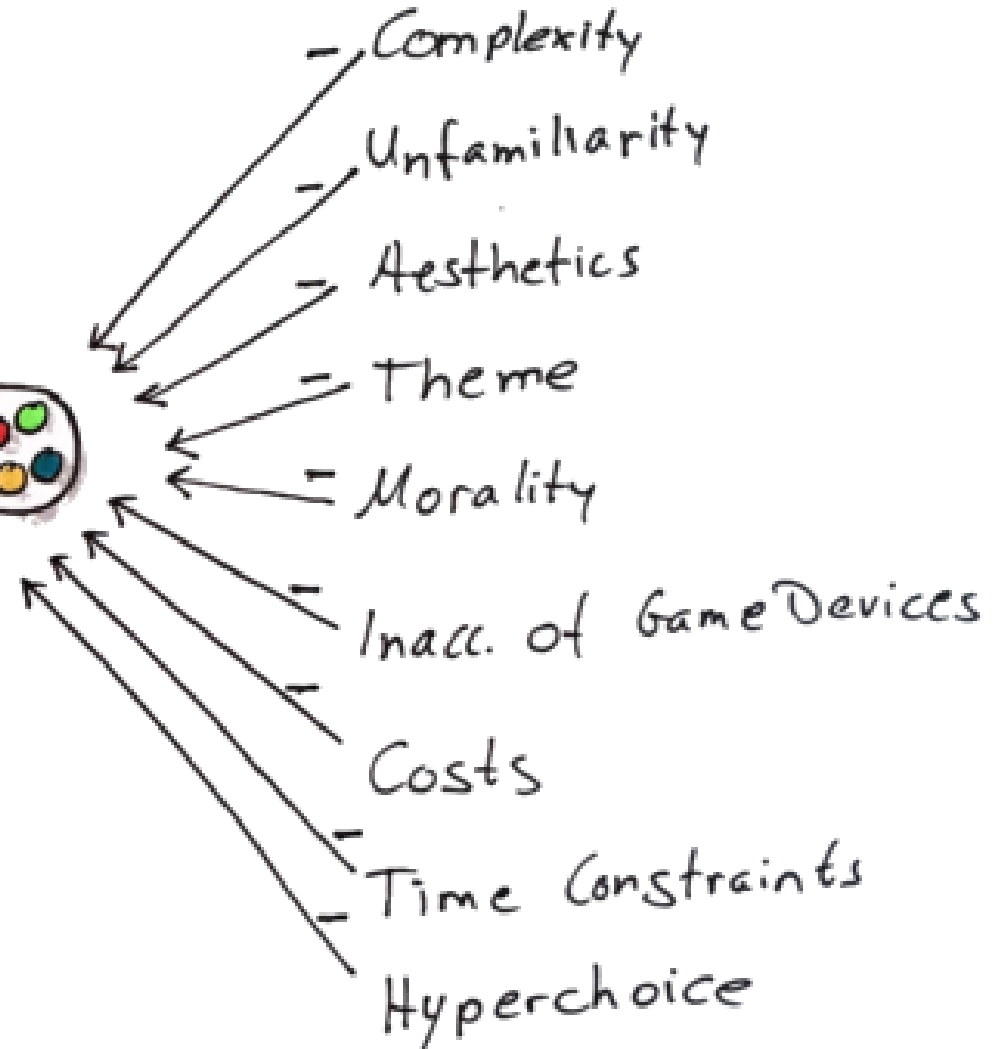

# Barriers

# Model Overview

## Motives

## Barriers

# Motives & Barriers - Direct Effects

# Factorized Model

# Research Methodology

## Measuring the Dependent Variable

# Measuring the Independent Variables

Unipark.de

## Sample Description

## Results

### Reliability & Unidimensionality of Scales

## *Model Testing - Model 1*

## Model Testing - Model 2 (factorized)

# Post-Hoc Analysis - Game Type as Moderator?

# Model Testing - Model 3
